Richard PARRY (Barrister-at-Law.),S. J. WORSLEY

Parry's Valuation and Investment Tables University College of Estate Management,2019-08-30 First published in 1913, Richard Parry's Valuation and Investment Tables has since become an essential tool for students and professionals in the study and practice of valuation and appraisal. That the book reached its centenary year in print and now fourteenth edition is a testament to its acclaim by the valuation and property professionals in an era of calculators and computers, and furthermore a tribute to the historical importance of Parry's original vision and continued legacy. The purpose of the book is to provide a comprehensive range of different valuation and investment tables in one volume. Although many of the tables will be used by practicing surveyors for valuation purposes, they will also be useful to accountants and others concerned with various types of investment and financial calculations. Surveyors valuing freehold or leasehold interests in property have the choice of using either (a) annually in arrear, or (b) quarterly in advance figures of years' purchase. The relevant tables for each concept are printed on different coloured edged pages for ease of reference. In practice today, calculations are required for a variety of purposes which often justify more than one approach. To allow for this, Internal Rates of Return tables have been retained. Using these tables, both growth and non-growth scenarios can be analysed for more detailed appraisal of specific freehold properties and to provide a basis for more in-depth investment advice.

Parry's Valuation and Investment Tables Alick Davidson,2002 The purpose of this edition is to provide a comprehensive set of some 30 different valuations and investment tables in one volume. Although the tables will be used mainly by practising surveyors, they will also be useful to accountants and others concerned with various types of investment and financial calculations. In practice today, calculations are required for a variety of purposes which often justify more than one approach. With this in mind, Internal Rates of Return tables have been retained in a modified form. Using these tables, both growth and non-growth scenarios can be analysed for a more detailed appraisal of specific freehold property investments and to provide a basis for more in-depth investment advice.

Parry's Valuation and Investment Tables Alick W. Davidson,Richard Parry,1989 The purpose of this edition is to provide a comprehensive set of some 30 different valuations and investment tables in one volume. Although the tables will be used
